**Title:** NESHAP for Printing and Publishing Industry (Renewal)

**ICR Numbers:** EPA ICR Number 1739.07, OMB Control Number 2060-0335

**ICR Status:** This ICR is scheduled to expire on June 30, 2013. Under OMB regulations, the Agency may continue to either conduct or sponsor the collection of information while this submission is pending at OMB.

**Abstract:** The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart KK.

Owners or operators of the affected facilities must submit an initial notification report, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required semiannually at a minimum.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 95 hours per response. “Burden” means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously

applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners and operators of printing and publishing facilities

Estimated Number of Respondents: 352

Frequency of Response: Initially, semiannually, and annually

Estimated Total Annual Hour Burden: 58,162

Estimated Total Annual Cost: \$6,045,789, which includes \$5,631,789 in labor costs, no capital/startup costs, and \$414,000 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is a small decrease in the respondent labor hours from the most-recently approved ICR due to an adjustment. The previous ICR calculated the burden assuming a percentage of the respondent universe are subject to specific burden activities; in some cases, the calculations included non-integer number of respondents. This ICR uses whole (rounded) values for the number of respondents, which results in an overall decrease in labor hours. There is also a decrease in the Agency burden costs due to a mathematical correction for the review of startup, shutdown, and malfunction reports in the previous ICR.

There is also an adjustment increase in the respondent labor costs. This increase is not due to any program changes; rather, the increase was due to an adjustment in labor rates. This ICR uses updated labor rates to estimate all burden costs.
